

AGRICULTURE

CONTINUOUS EVOLUTION

Constantly ahead in terms of technological solutions, Dieci continues the evolutionary process of its vehicles, raising the standards even higher with the **New Agriculture Range**.

Reliability, efficiency and comfort have reached unprecedented levels through improved design and instrumentation and the introduction of **patented**, futuristic innovations.

New Stage V engines on the whole range, 360° suspended cab and new interior, more intuitive and functional diagnostics and controls, new chassis and new transmissions, bring tomorrow's agricultural telehandlers into the field today.

SUSPENDED CAR

EXCLUSIVE DIECI

ZERO SHOCK **SYSTEM**

New cab shock-absorbing system, unique in the telehandler sector, capable of effectively dampening the most annoying oscillations on the roughest terrain.

The hydraulic suspension of the cab effectively reduces oscillations and offers a high driving comfort.

The cab is provided with a shock absorption system, with integrated adjustment, consisting of **4 supports that absorb impacts and jolts** in every direction: lateral, vertical, rear and front.

MORE VALUE

- New Cab by Giugiaro Design
- Refined soft-touch interiors, derived from the automotive industry

MORE LEGROOM

• Improved ergonomics and accessibility • More space for the operator's legs

MORE COMFORT

- Adjustable steering column and armrest
- Heated seat, 3 suspension system options
- Soundproofing roof, dashboard and mat

MORE VISIBILITY

- Large windows
- Integrated LED worklights Headlights on the perimeter, on the boom and on the boom head
- 3 wireless cameras 7" color graphic display
- Electrically adjustable heated wing mirrors

BETTER CLIMATE CONTROL

- Optimized air flows: 6 vents available
- Rear glass and openable roof
- Integrated electric lateral window
- Quick demisting of the windows
- Double air filter
- Operator protected against dust and odors

Front Silent Blocks

Rear hydraulic shock absorbers

TRANSMISSION

5 SYSTEMS AVAILABLE ALWAYS IMPECCABLE WORK

SINGLE-SPEED HYDROSTATIC

EFFICIENCY GUARANTEED OVER TIME

MORE POWERFUL EASIER MORE RELIABLE MORE SAVINGS

- Extremely high performance: best speed-power ratio maintained in all working conditions
- Guaranteed traction and speed, with no need to change gear
 Up to 38 Km/h at progressive speed: unrivaled fluidity of
- movement and millimetric precision in small movements
- Electronic accelerator and Inching pedal: slow and controlled
- movement, even with the boom at full powerGreat comfort: no gear changes, no jolts
- Gleat comot. no gear changes, no jott

Mini Agri Mini Agri Smart Agri Star

- Electronic control: maximum forward travel precision even at full speed
- 1st gear at 19 km/h
- Maximum speed 40 km/h

Agri Farmer Agri Max

Agri Pivot

VARIO SYSTEM

ECO

4 DRIVING MODES

NORMAL

LOADER

- Integrated electronic control: power, responsiveness and control in maneuvres
- Wide speed range: from 0 to 40 km/h with no need to change gear
- Cruise Control: electronic accelerator and limiter

Agri Plus Agri Max

SHIFT ON FLY

GEAR SHIFT IN MOTION

MORE UPHILL SAFETY MORE COMFORT ON THE ROAD

- Hydrostatic transmission with **2-speed** mechanical gearbox
- Shift on Fly gearbox: possibility to change gear while moving
- Shift controls on the joystick: less time spent on maneuvres

Agri Pivot

HVT-1

CONTINUOUSLY VARIABLE HYDROSTATIC-MECHANICAL CVT

- The world's first telehandler with epicyclic gear train transmission
- \cdot Speed 50 km/h without torque interruption
- Maximum torque delivered to the wheels in stall conditions and at low speed
- Reduced engine rpm = **low fuel consumption and low noise**
- Smooth driving with the vehicle always in gear even when towing

Agri Max Power X2

MINI AGRI SMART

20.4

<image>

TILTING BALLAST

NEW ENGINE HOOD

90° ROTATING RADIATOR

The Dieci Research & Development department has created a set of patented solutions that improve accessibility to components for **easy and immediate maintenance**.

DIMENSIONS

Agile in small spaces, precise in all movements. The high strength of the boom makes it possible to **handle loads at great heights** without any risk.

The **3 steering modes** – front, concentric, transverse – allow **smooth driving** even with the heaviest loads.

The dashboard layout has been completely revised to improve **accessibility** to the roomy cab.

MINI AGRI 26.6

FLUID AND PRECISE

DIMENSIONS I,9 m

JIECO

Unrivaled fluidity of movement and **millimetric precision** in small movements.

Controlled vehicle travel, even at full boom speed, through electronic accelerator and inching pedal.

Pneumatic suspension on the boom reduces oscillations to a minimum.

The new hydraulic pump reduces working time by 15%.

AGRI FARMER

37.7 | 30.9 34.7 | 32.9 THE RIGHT SIZE

NEW SIZES, MORE SIZES

The Agri Farmer family now offers new sizes. According to the requirement, the most **appropriate size** of vehicle can be selected for the specific job.

The different models are available in **different widths and heights**, while maintaining the same agility and efficiency.

HYDROSTATIC TRANSMISSION WITH ELECTRONIC CONTROL

AGRI STAR

37.7 | 40.8 | 38.10 AGILE AND FAST

A high-performance vehicle for a streamlined and efficient production cycle.

The **single-speed hydrostatic transmission** eliminates gear changes and jerks and produces high towing force even at high speeds.

The **creeper function** on the accelerator allows the operator to adjust the speed without using the inching control and to maintain constant engine speed and oil flow, for efficient use of equipment such as sweepers or straw spreaders.

AGRI PLUS

42.7 | 40.10 PURE TECHNOLOGY

യ് ന VARIO SYSTEM

VARIO SYSTEM TRANSMISSION

4 modes: Normal, ECO, Loader, Creeper

Cruise Control

From 0 to **40 km/h** with no need to change gear

Integrated electronic control

NEW HIGH TECH BOOM

Advanced functions: Shake, Wall, Memory.

Dual pump with Energy Saving system, for reactive and precise boom even at high power.

AGRI MAX 50.8 | 65.8 | 60.9 | 75.10

LARGE AND PERFORMING

VARIO SYSTEM TRANSMISSION

4 modes: Normal, ECO, Loader, Creeper

Cruise Control

From 0 to 40 km/h with no need to change gear

Integrated electronic control

The single extension arm makes it possible to reach **10** meters with maximum stability and accuracy of movement.

Advanced functions: Shake, Wall, Memory.

AGRI MAX POWER 2

THE FIRST

connected by a **planetary gear**.

IN THE WORLD

precision and control of maneuvres and speeds.

Two power outputs combined by a **mechanical** and a **hydrostatic** branch

Continuous variation over 50 km/h without torque interruption, greater

Choice of softer or more aggressive settings for all operating requirements.

50.8 | 65.8 | 60.9 DUAL POWER, MAXIMUM EFFICIENCY

HVT-1 TRANSMISSION

Power Split technology

Tows up to 30 tonnes

Up to 50 km/h

The highest performing vehicle in the Dieci agricultural range features the mechatronic advantages of the **HVT1 transmission**. For the first time in the world, a telehandler is fitted with this unique innovative transmission.

HVT-1

CONTINUOUSLY VARIABLE HYDROSTATIC-MECHANICAL CVT TRANSMISSION

AGRI PIVOT

тбо | т70 | тво TOTAL INNOVATION

SHIFT ON FLY HYDRO DUAL

Renewed cab: **more legroom**, completely redesigned dashboard, new monitor.

Main controls collected on the **new armrest**, integrated into the seat.

Improved air conditioning and soundproofing, **redesigned engine hood** for greater accessibility.

SHIFT ON FLY

Gear changes without stopping.

Automatic uphill braking.

Advanced functions: **Shake, Wall, Memory, Floating**. Stronger boom, greater reach, highly tipable bucket. **Flow Sharing:** all vehicle movements at the same time.

Dieci's innovation continues to grow, bringing to the market the new **100% electric telehandlers**.

Maneuverability, versatility, and cost-effectiveness meet the advantages of electric power, allowing efficient operation in any working condition. Compact, agile, and high-performing telehandlers, ideal for indoor use, urban areas, greenhouses, or environmentally restricted zones.

ELECTRIC TECHNOLOGY

Thanks to advanced technological solutions, the **electric telehandler** offers significant operational benefits:

Reduced noise levels

Easy and quick battery change

Low maintenance

No usage limitations

3 charging sockets as standard, all connected to the onboard battery charger system.

MINI AGRI 🚝

BATTERY

Dual lithium battery (LiFePo4)*

* ECE R100 approved

Modular technology: **optimized costs and efficiency** thanks to an **expandable battery pack**.

MINI AGRI 🚝 SMÁRT

BATTERY

Lithium battery (LiFePo4)*

* ECE R100 approved

Compact size and functional design: spacious cab, controls, and information always accessible to the operator.

DOCCT0000106-EN-04
